Hi Dana,

There will be a few more (mostly minor) edits from the removal of those three products on other slides. Is it too late to send them along (if not, I'll remove the comments and let Darlene know).

Thanks, sorry for the short notice

Hi Trish – so some of the risk estimate ranges did change with taking out those products. Nothing changed the bottom line, but I did make changes to the slides in case there is time to include them, but if not, I don't think it's critical. I can just note any differences in my talking points.

Hi Trish – yes, those products that are highlighted appear to be “inactive” according to PPLS. We can take them out of our assessment and summaries. If, by some slim chance, those particular products impact the range of risk estimates provided, I'll let you know. I'm hoping they fell out somewhere in the middle and the ranges still stand.

Hi Kelly,

I wanted to see if HED concurred with RD about the cancelled products below. I think I got these numbers initially from the slide deck, if HED agrees with RD I was just going to revise the table.

Thanks!

Summary of Residential Risk Estimates – Pet Products (non-cancer LOC = 1000)							
		Dusts/Powders	Trigger-Pump/Sprays	Pet collars (X = non-cancer risks identified)			
Handler	Non-cancer	No risks identified					
	Cancer	10 <sup>-9</sup> to 10 <sup>-7</sup>	10 <sup>-9</sup> to 10 <sup>-8</sup>	10 <sup>-8</sup>			
Post-application	Non-cancer	Risks for all registered products 47000-123 2596-78 2596-79 67517-82	No risks identified 2596-126 2596-140 2596-125	Products		Use of Davis data	Use of Hartz data
				2596-49	Cat	X	X
				2596-50, 62	Small Dog	X	
					Large Dog	X	
				2596-63	Small Cat	X	X
					Large Cat	X	
				2596-83	Small Cat	X	X
					Large Cat	X	X
				2596-84	Small Dog	X	X
					Large Dog	X	
				2596-139	Cat	X	
					Dog	X	X
				11556-164	Dog	X	

				11556-165	Cat	X	
	Cancer	$10^{-7}$ to $10^{-6}$	$10^{-7}$	Range for all products:		$10^{-6}$ to $10^{-5}$	$10^{-7}$ to $10^{-6}$

**Subject:** RE: TCVP registration questions

Thanks so much, Debra! This is great. Could we ask RD for one more thing, we want to confirm any “me-too” and/or repackaged products. HED and BEAD have mentioned that these may include:

## Ex. 5 Deliberative Process (DP)

Thanks again!

Trish

**Subject:** RE: TCVP registration questions

Hi Trish,

The Hartz Technical product (EPA Reg. No. 2596-131) has two approved CSFs: Basic CSF and Alt. CSF #1. Pending Notification for Alt. CSF #2. Details below:

## Ex. 4 CBI

Answers to your specific questions are below:

## Ex. 5 Deliberative Process (DP)

3. Could RD provide a “precise” list of technical and end use registrants for the pet products (email attached)? Yes. See attached Excel files. One Excel table is a download of all TCVP products from OPPIN Query and the other table has only the pet products as well as the Bayer Technical products. Hartz is the only registrant with TCVP pet products. There are 12 end-use products and 1 Hartz Technical product.

Description of the attached Excel spreadsheets for the TCVP active Section 3 registrations:

1. TCVP Active Section 3 Product Registrations (Spreadsheet with all of the 44 TCVP product registrations)
2. TCVP Active Section 3 Product Registrations PET PRODUCTS and BAYER Technical Products

Please let me know if you have any questions or would like any additional information.

Thanks.

Debra

**Subject:** TCVP registration questions

Hi Shanta and Debra,

Thank you very much for your time on the TCVP call this morning. We would like to ask if RD could help with some of the registration questions posed by Rick during the call:

## Ex. 5 Deliberative Process (DP)

And a request from OGC following the call that we could use RD’s assistance with....

- Could RD provide a “precise” list of technical and end use registrants for the pet products (email attached)

Many thanks!

Trish
